

Charts

Last Modified on 16/04/2019 6:05 pm AEST

Charts are based on [Reports](#) and are used to visualise the data in the report.

The screenshot presents an overview of basic capabilities when viewing a chart.

1. Chart data: select any segment of a chart to drill down to the underlying data
2. Chart heading
3. Values axis
4. Primary axis
5. Chart Legend

To build charts, see [Chart Builder](#).
