

Multiline Text

Last Modified on 17/04/2019 3:16 pm AEST

A Multiline Text field is a field that enables the user to type a large amount of text. If the intention is to use a small amount of text, use a [Text Field](#).

General field properties can be found in [General Field Properties](#).

- Max. length: 10,000 characters.
 - Can be defined as Mandatory
 - Can be defined as Read-only
 - Can specify a minimum or maximum length
 - Can be defined with a specific [text pattern](#)
-
