

# Editing an Existing Nova Application

Last Modified on 23/01/2024 2:34 pm AEDT

Editing an existing application typically involves making changes, updates, or improvements to meet new requirements, fix issues, or enhance functionality.

To edit an existing application:

1. Go to **Administration** → **Readinow Nova** → **Apps**
2. In the Apps menu look for the application that you want to edit. You can either scroll down through the list of applications or type in the name of the application in the **Search bar**.
3. Lastly, on the right-hand side, click the application's corresponding edit
