Editing an Existing Nova App

Last Modified on 23/04/2025 5:38 pm AEST

Editing an existing app typically involves making changes, updates, or improvements to meet new requirements, fix issues, or enhance functionality.

To edit an existing app:

- 1. Go to Administration \rightarrow Readinow Nova \rightarrow Apps.
- 2. In the Apps menu look for the application that you want to edit. You can either scroll down through the list of applications or type in the name of the application in the **Search bar**.
- 3. Lastly, on the right-hand side, click the application's corresponding edit
