

Signing in and finding your apps

Last Modified on 07/07/2026 4:18 pm AEST

1. Sign in to ReadiNow with your usual credentials.
2. Your available **applications (apps)** appear at the top of the screen. Select an app to open it - you no longer need to return to a separate landing page to switch apps.
3. Within an app, use the **navigation menu at the top of the page** to move between pages such as dashboards, reports and forms.

[SCREENSHOT: Nova top bar showing the app switcher and the page navigation menu]

Coming from Classic? Classic used both a left-hand menu and a top menu. In Nova, apps appear along the top and each app's pages are reached from the top navigation menu - there is no left-hand navigation panel.
