

ReadiAI in Nova

Last Modified on 07/07/2026 4:19 pm AEST

Nova unlocks Readiness's AI capabilities, helping you and your users work smarter:

- **Agentic AI** - AI agents that can act within the context of your applications.
- **Workflow AI** - bring AI into your automated processes.
- **AI Suggest** - propose content or next steps based on context.
- **AI Explain** - help users understand data and records.

Responsible AI: Readiness provides AI features under its Responsible AI approach. See the Readiness Responsible AI documentation for how these capabilities are governed.
